handsome, experienced, and well-connected. He's had a stellar term as governor of Virginia and is poised to win the Republican nomination for president. Then an obscure priest is found dead in a Zurich apartment and Esther Rosenberg, a powerful Washington lawyer, turns to her inside connections to find out why.

With the help of Paul Maddox, a former congressman, Esther follows a string of clues that takes her deep into the heart of a corrupt conspiracy, one that points toward McNeil and the ancient Order of Malta. This time, the Order is working from the inside and is only one election away from perfecting its final solution—a massive genocide that will eliminate the Jews in America. Only Esther knows the truth, but can she act in time to stop the plot or will evil unleash its horrors on her people yet again? Will the deception be discovered before election day or will the American people find themselves under the rule of a puppet selected and controlled by the Order of Malta?
